## Welcome New and Returning Honors Students!

We hope you enjoyed your long summer break and are eager to start the 2007-2008 school year. First, we would like to introduce ourselves.

My name is Dustin May and I am a fourth year UCSB student, double majoring in Political Science and Statistical Science. This is my second year as Student Honors Coordinator, and I am looking forward to working with students again this year. I will be graduating in June and will be looking to head to law school next fall. At UCSB I am involved in intramural sports in soccer and volleyball and am also involved in a fraternity here on campus. I recently got back from a 5 week travel study/touring venture in Europe, which was a great experience, and I would highly recommend students to look at traveling abroad during their stay here at UCSB. This year as Student Honors Coordinator, I hope to increase the interaction between faculty and honors students through various programs.

My name is Jaimie Thomas and this is my first year as Student Honors Coordinator. Currently, I am a Political Science major with an emphasis in International Relations and hopefully will be adding a History minor. I will be a third year student, and I have greatly enjoyed my last two years here at UCSB. Some of the activities that I have become strongly involved in on campus are the American Cancer Society's Relay for Life event and greek life. This summer, I visited family, went to Boston as a representative of my sorority and worked here in the office setting up our Honors Match Program. I also took a cupcake decorating class for fun. After UCSB, I am hoping to go to law school as well to pursue a career in Environmental or International Law. This year I plan to increase outreach to honors students so they can fully utilize the resources and opportunities that the Honors Program has to offer.

This year we have some exciting new events planned including our Match Program kick-off, a return of the Coffee and Concepts Program, and other interactive events with professors. Feel free to stop by our office at anytime. We are really looking forward to getting to know and working with each of you this year. Thanks and good luck!
